The Itasca Symphony Orchestra presents an evening of overtures to capture your imagination. In your mind's eye: travel to Great Britain and explore a spectacular basalt sea cave; root for the hero who dies for his cause with a certainty that freedom and the dignity of all human kind will prevail; battle the forces of good and evil with the hunter who sells his soul to the devil; and allow yourself to be swept up by the overture that has inspired everyone from Bugs Bunny to Seinfeld.

Gioachino Rossini's *Barber of Seville*
